Summary

A dedicated team member passionate about implementing and launching new projects and having the ability to translate business requirements into technical solutions.

Technical Skills

- **Backend** - Node Js, Express Js, Typescript, Python
- **Frontend** - Javascript, React Js, Typescript, Web Sockets
- **DevOps** - Kubernetes, AWS, Jenkins
- **Database** - MySQL, MongoDB, Redis

Experience

Engineering Associate | 1K Kirana Bazaar | AUG 2022 – APRIL 2023

Established Swagger documentation for existing APIs that resulted in enhancing software development structure, optimizing testing efficiency, and expediting software delivery

- Developed efficient bulk upload/download functionality for shipment Proof of Delivery (POD) documents on S3, resulting in a 25% improvement in monitoring the timeliness and accuracy of deliveries
- Revamped web and app warehouse processes, achieving 40% improvement in unloading and inspection efficiency, enhancing accuracy for streamlined operations and improved warehouse performance
- Developed web and app warehouse picking/billing system with end-to-end CRUD operations, incorporating background jobs for inventory generation, and ensuring a significant boost in efficiency and accuracy

Backend Intern | DOUBTNUT | MAY 2021 – JULY 2022

Developed and optimized database as well as backend-system

- Key contributor to a distributed microservices chat feature using web sockets, empowering students to study collaboratively which handles 8M-10M daily messages.
- Managing code deployment using Jenkins and bug fixing of app
- Developed OTP-free login for registered users, allowing three consecutive logins on the last device which enhances the user experience and reduces OTP costs
- Implemented a 'Refer and Earn' feature, incentivizing app user referrals and rewarding PAYTM cash, effectively targeting and acquiring new users.

PERSONAL PROJECTS

[\[Link\]](#) Chat Application -

An online real time chatting website made using web sockets where you can chat with anyone around the world

[\[Link\]](#) Instagram Clone -

Clone of the popular social networking website Instagram. Backend made using MondoDb Database, Express Js and Node Js. Frontend made using ReactJs

[\[Link\]](#) Notes Keeping App -

Basic note taking app made to practice react skills. You Can create and delete notes here and manage your work

Education

B.E In Computer Science | Chitkara University | AUGUST 2018 – JULY 2022

CGPA – 9.52

Advanced Programming Concepts, Data Structures, Dbms, Algorithm Design and Implementation, Algorithm Design and Implementation

CERTIFICATES

The Complete Node.js Developer Course Certification – Udemy
